SUMMARY

Experienced scientist with business background seeking a laboratory, administrative, or teaching position closer to home. Have made successful contributions in professional settings.

CORE COMPETENCIES

Safety, Environmental, Management.

PROFESSIONAL EXPERIENCE

Associate Project Scientist

ABC Corporation - 1990 – 1994

Key Deliverables:

- Performed extensive air and stack emission sampling for multiple companies to meet state and federal compliance.
- Conducted onsite air monitoring per 40 Code of Federal Regulations, parts 60 methods 1 through 26 for nitrogen oxides, sulfur dioxides.
- Data used to calculate source emission rates, flow rates, and oxygen correction values with permitted limits.
- Operated and calibrated continuous emissions monitoring equipment for onsite stack gas analysis in a mobile laboratory.
- Conducted relative accuracy tests for continuous monitoring systems on multiple air stack sources.
- Conducted efficiency tests for various thermal oxidizers, furnaces, and baghouses.
- Collect filter weight, liquid extraction, and air samples for analysis. Used onsite chain of custody quality control for all sampling methods.

Project Scientist

ABC Corporation - 1987 – 1990

Key Deliverables:

- Provided team support for a variety of site investigation projects using advanced techniques such as cone penetrometer, rapid optical sensing tool (ROST).
- membrane interface probe (MIP), etc.
- Lead contact for all 3-D geologic computer modeling and geostatistical/geospatial analysis.
- Provided support on various soil, groundwater, and surface water projects, including Risk Evaluation/Corrective Action Program (RECAP) reports, RCRA Facility Investigations (RFI) Field Supervisor on first privately performed Total Maximum Daily Load (TMDL) project in Louisiana, at that time.
- Due Diligence coordination, field team leader, and reporting.

ROBERT SMITH

Associate Project Scientist

Phone: (0123)-456-789 | Email: info@qwikresume.com | Website: Qwikresume.com

- Brownfields and Voluntary Remediation Program (VRP) involvement, Phase I and II Environmental Site Assessment (ESA), Environmental Audits conducted, LDEQ file reviews, etc.
- This is Dummy Description data, Replace with job description relevant to your current role.

EDUCATION

Masters of Public Administration in Environmental Science Management -
1999(Jacksonville State University - Jacksonville, AL)
