

Objective

Nationally registered Remote Paramedic/HSE Specialist with 8 years as a paramedic. Extensive hands-on medical experience in high energy on-call environments with the past 2+ years serving as an operations commander with a high volume, privately owned EMS service. To employ my knowledge and experience with the intention of securing a professional career with an opportunity for challenges and career advancement, while gaining knowledge of new skills and expertise.

Skills

Firefighter, Paramedic, Instructor, Emergency Vehicle Driver/Operator, Computer Literate, Multi-Line Phone System, Customer Service

Work Experience

Remote Paramedic/HSE Specialist

ABC Corporation - August 2013 – August 2016

- Treated and transported their patients to the most appropriate emergency department.
- Assessed the condition of each patient, examining injuries and registering the patients vital signs.
- Provided appropriate treatments and place patients on a backboard and/or stretcher before loading them into the ambulance.
- Administered medications orally and intravenously, interpret electrocardiograms, performed endotracheal intubations, and used monitors and other complex equipment.
- On the way to the hospital, consulted with an emergency room doctor via two-way radio or telephone to receive authorization to perform certain procedures.
- Upon arrival at the hospital, unloaded the patient and brief the emergency room staff on his/her condition.
- Documented the details of the “run” and cleaned the ambulance before responding to the next emergency call.

Flight Paramedic

ABC Corporation - April 2007 – July 2012

- Obtained medical report from flight nurse, to include addressing diseases affected by altitude.
- Called for an updated medical report from the discharging facility/physician, if needed.
- Completed pre-flight checklists. Assured medical equipment is accounted for, properly functioning and securely stowed on the aircraft.
- Calculated, loaded and secured oxygen appropriate to patient needs, allowing for delays and/or changes in patient condition.
- Familiar with location and use of equipment and supplies, to include medications.
- Assured additional medical equipment/supplies are available for the specific needs of the patient condition and needs, based on available patient report and distance of transport.
- This is Dummy Description data, Replace with job description relevant to your current role.

Education

High School - 2011 (Midstate Technical College - Wisconsin Rapids, WI)
