Alabama.

Objective

Detail-oriented also a stakeholder-oriented UI/UX designer. Over 5 years experience in doing customer-centered design. Years' experience of working in different companies keeps me updated and foreseen what is the current trend and what will be the future trend in this market. Rapid prototyping are strong points.

Skills

Video Editing, Fashion Design, Visual And Branding Design, Interaction Design, UX Design, UI Design.

Work Experience

Senior Product Designer

American Express - March 2016 - 2020

- Partners closely with a cross-functional team to clearly understand human needs, generate meaningful product ideas and measure the impact of those ideas
- Takes expansive approaches to ideation but pragmatic and iterative approaches to wireframing and prototyping
- Cares deeply about the details and having a high level of fit and finish
- Participates in design critique by sharing and receiving constructive feedback
- Uses storytelling to communicate new, ambitious design concepts to leadership and partners
- Collaborates with engineers to see your interface designs through implementation and shipping
- Identifies reunites for impact, define problems, propose solutions

Senior Product Designer

Delta Corporation - 2014 - 2016

- Design, model management, integration and detail of the StarTracker for the James Webb Space Telescope.
- Composite layup design and pattern layout for aerospace reflectors in precise alignment with technical plans.
- Actively supported quality assurance objectives by managing test tooling design and detailing.
- Modeling, model management and detailing of composite optical platforms for a satellite.
- Design of integration drawings, bonding fixtures and sanding templates.
- As lead designer developed a touch screen display and card reader for gas pump, I was the main focus point in developing the design shape of panel .
- Designed hand held molded scanners for FEDEX and UPS companies, responsibility was modeling and working with FEA engineers in shaping a cosmetic look .
