SUMMARY

A dynamic and seasoned Senior Software Developer with over 5 years in the IT industry offering a unique combination of executive skills and practical development know how. Hands on experience of all phases of Software Development Life Cycle (SDLC): Requirements gathering and analysis, design, implementation, transition to support.

SKILLS

SharePoint 2010, 2013, MOSS 2007, Migration, SharePoint Architecture.

WORK EXPERIENCE

Sharepoint Architect

Broadcom - July 2014 - 2020

- Contributed to the migration plan from SharePoint 2010 to SharePoint 2013, including pre-migration activities such as clean up content, clean up unused sites and identify custom solutions.
- Performed migration for several sites using Metalogix by defining jobs and run on schedule basis.
- Became the main point of contact between technical team and business users for communication about the progress on the migration.
- Worked closely with end users to fix problems with custom solutions in the sites migrated to the new environment.
- Ensured all permissions were set correctly after the migration and assign the correct ones otherwise.
- Assisted on creating training material for end users about the correct use and best practices of the new SharePoint environment.
- Became primary resource on provisioning new sites for collaboration for different teams in the organization.

Sharepoint Architect

Delta Corporation - 2013 - 2014

- Created a series of documentation for a migration from 2010 to 2013 including milestones and an approximate time line.
- Built a proof of concept 2013 SharePoint farm with the customizations and style of the farm had spent the project working on, including an app based solution for the web parts that were in use.
- Completed a Search-First Migration, configuring a SharePoint 2013 Farm to crawl content from existing farm in mixed mode.
- Performed Fit/Gap Analysis, documenting findings and reporting on the gaps noted and the process to set the proper foundation to complete a migration to SharePoint 2013.
- Analyzed existing SharePoint 2010 performance to track efficiency and response time.
- Charted and presented log of issues and viable solutions with pros and cons.
- Implemented desired improvements in SharePoint 2010 farm to increase performance.

EDUCATION

Bachelor of Science in Computer and Information Sciences - (University of North Florida)
