PERSONAL STATEMENT

9+ years of experience in PeopleSoft technology this includes Implementation, Customization, Upgrade, Maintenance, Support and Testing. Predominantly focused on design, customization and implementation of PeopleSoft HCM Modules (Core HR, Security, NA Payroll, Profile Management, Time and Labor, Workforce Administration, Absence Management).

WORK EXPERIENCE

Lead Peoplesoft Techno Functional Consultant **ABC Corporation - March 2010 - January 2011**

Responsibilities:

- Extensively utilized Compare reports for retrofitting the application by identifying differences between databases and to also compare the base version with the target version.
- Retrofitted the customized objects, based on the compare report and analyzed to retain vanilla or to reapply customization.
- Identified the impacted SQRs and SQCs and retrofitted complex custom SQRs and SQCs in preparation for upgrade to 9.2 based on 9.0 customizations.
- Customized the Match workbench considered as a loophole in Accounts Payable, so that only users with appropriate dollar amounts can override the match exceptions.
- Involved in restricting the AP origins to Purchasing users and vice versa.
- Made several customizations in Purchasing as per the users requirements.
- Involved in Fit Gap Analysis for GL, AP, Purchasing, INV, ePro, AM, Project Costing, Grants, Treasury and Contracts modules and assisted the technical team in setting up the financial modules as per the clients requirements.

Peoplesoft Techno Functional Consultant **Delta Corporation - 2008 - 2010**

Responsibilities:

- Project ASM Project (Core HR & NA Payroll support) Responsibilities Resolved technical requests raised by Client with a quick turnaround.
- Analyzed SQR programs, PeopleCode and Application Engine and fixed the issues.
- Execution of modified programs in UNIX environment through UNIX shell scripts to get the required outputs.
- Prepared Technical Specification Document for the issues.
- Customization as well as new enhancement in existing system.
- Wrote couple of interfaces for third party vendor.
- Wrote SQR of max.
