

# Robert Smith

## Project Scientist II

### PERSONAL STATEMENT

To engage skills and experience in areas pertaining to Soil Mechanics, Foundation Engineering, Foundation Design, Ground Improvement Techniques and Slope Stability.

### WORK EXPERIENCE

#### **Project Scientist II**

**Alliance Source Testing - 2014 - 2019**

##### *Responsibilities:*

- Develop soil fumigation method, evaluate fumigant distribution in a soil profile, and determine the environmental fate of fumigants.
- Improve pest control efficacy (weeds, nematodes, and pathogens) with pesticide and non-chemical alternatives.
- Optimize water and nutrient management to cope with drought issues, nitrate leaching, and N2O and NH3 emission loss.
- Work closely with crop industries, regulation agencies, and scientists and faculty at the USDA-ARS and University of California systems.
- Conduct extension activities, supervise technicians and students and apply for grants.
- Optimize agricultural practices including plastic mulching, irrigation, hydroponics, biochar application.
- Directed the development of polymer conductors with conductivity close to the state-of-the-art PEDOT.

#### **Project Scientist**

**ABC Corporation - 2013 - 2014**

##### *Responsibilities:*

- Regulatory, Product Investigations, Corrective Actions and Preventative Action, External Collaborations Responsible for leading and participating in activities required to close out multiple product investigations and implement corrective and preventative action plans.
- Analytical lead for two VAQTA related product investigations.
- Closed out atypical process reports (APRs) by working with team members to develop experimental protocols, identifying and partnering with (cross-functional and cross- divisional) technical experts, and established external collaborations.
- Worked with team members to align functional, manufacturing, analytical, and regulatory priorities during the development of novel analytical methods in advance of technical transfer activities.
- Liaised with Regulatory Affairs to address Regulatory questions.
- Planned activities (worldwide) for the testing of reference samples, starting materials, packaging materials and finished products..
- This is Dummy Description data, Replace with job description relevant to your current role.
