CORE COMPETENCIES

Services, Message Activations, Listener ports.

PROFESSIONAL EXPERIENCE

Senior Websphere Administrator/Executive

ABC Corporation - March 2015 – April 2016

Key Deliverables:

- Installed, Configured and Administered IBM HTTP Web Servers.
- Configured admin console security on WebSphere and creating users with various roles to access the WebSphere admin console - users and groups in LDAP and added them as WebSphere Console Groups.
- Involved with the SSL Certificates missing issues and installed certificates from the backup.
- Deployed the applications in development, testing, Pre-Prod and Prod environments.
- Configured WebSphere resources like JVM heap settings, JDBC providers, JDBC data sources, connection pooling, Virtual Hosts, Global Security and SSL.
- Used Tivoli Performance Viewer to monitor WebSphere Applications and tuned the environment accordingly like changing the JVM Heap, and Connection Pool sizes.
- Configured Wily Introscope for multiple applications, defining agent configurations - EPAgent (nmon enabled).

Senior Websphere Administrator

Delta Corporation - 2010 – 2015

Key Deliverables:

- Install, Configuring WebSphere Plugins on MSIS and IBM Http Server.
- Working on Siteminder configurations for different applications and for different environments.
- Configured global security for WebSphere Application Server using IBM Directory Server as LDAP user registry and configured SSL for LDAP communication.
- Installed the Refresh Packs and cumulative fixes to WebSphere ND V7.0 environment, for WebSphere, plugins and IHS.
- Enabling security by integrating LDAP servers with Websphere.
- Experienced in configuring JMS Provider using Websphere MQ.
