### WORK EXPERIENCE

#### Data Warehouse Consultant

ABC Corporation - February 2010 - May 2012

- Scheduled, Maintained and Executed Data Load.
- Developed Shell Scripts to bulk-copy data from the flat file to production and developed scripts to recreate the Table indexes, recompile and update the statistics of the Sybase objects.
- Maintained and updated Data Warehouse models.
- Generated and modified database schemas.
- Developed and enhanced procedures, reports and fixed production bugs.
- Lead the team of developers to solve production issues.
- Responsible for Import, Export, Patch Install, Version Upgrade, Extraction, Data Loading, SQL and PL/SQL Script.

#### Data Warehouse Consultant

Delta Corporation - 2009 - 2010

- Responsible for the development and maintenance of the data warehouse and enterprise reporting system for HMSHost Inc., an international retail, food and beverage operation formerly known as Host Marriott Services.
- Consulted with senior executives as well as support staff, on an on-going basis, to identify ever growing reporting requirements to derive business intelligence from daily operations.
- Developed, validated and documented business rules as a result of the information gathering process.
- Documented detailed descriptions of reporting requirements, ETL processes, and steps required to develop and maintain a decision support system.
- Prepare source to target mapping documentation, ER diagrams and data flow diagrams.
- Developed and modified ETL processes, incorporating RDBMS objects such as triggers, cursors and stored procedures into SQL Server DTS jobs, in response to new or enhanced reporting requirements.
- Responsible for the data integrity of the fact tables and dimension tables of the data warehouse star schema.

### EDUCATION

Master of Engineering - (Stevens Institute of Technology - Hoboken, NJ)
