WORK EXPERIENCE

Senior Systems Programmer

ABC Corporation - 1999 - 2003

- Planned for, installed, and supported new hardware.
- Implemented and managed hardware virtualization.
- Implemented mainframe security architecture via RACF.
- Responsible for all aspects of our systems software including the Operating systems and all third party software running under it.
- Responsible for the implementation of all of our subsidiary customers CICS systems and all related databases.
- Set up 2 divisions under the CICS MULTI-REGION OPTION so that their multiple CICS regions could share data on the same machine.
- Performed daily CICS data collection using CICS shutdown statistics and TMON data in order to recommend performance enhancements to my customers.

Senior Systems Programmer

Delta Corporation - 2001 - 2002

- Implemented customers ADABAS database systems and created extensive NATURAL program systems for our customers.
- Installed and customized GENTRAN EDI CICS software for evaluation purposes.
- Installed and customized CA-LIBRARIAN for MVS/VSE/VM and the CICS interface.
- Implemented CICS DTB and RDO for most CICS regions.
- Noteworthy Achievements - Resource manager to track CVA hardware resources and to facilitate fair and efficient resource allocation to user jobs.
- Diagnostic program for troubleshooting each hardware component.
- Virtual resource manager to allow testing of hardware configurations without physical hardware.

EDUCATION

Bachelor of Science in Business Administration - (Philippine School of Business Administration - Manila)
