A self-motivated, proactive and result oriented lead software engineer with 11+ years of experience in application development. Have a successful track record of delivering enterprise class end to end solutions in collaboration with cross functional teams spread around multiple locations in and across the globe.

Skills

Matlab, C/C++, Embedded Developer, Testing, DOORS, Software Development.

Work Experience

Senior Technical Lead

ABC Corporation - January 2014 - September 2016

- Viewed all these data in reports and that too in real time.
- Wrote a new service for the same with Druid as the backend framework.
- Kept the service generic enough so that in future some other Adobe products may use the same infrastructure without much change.
- Implemented the entire RESTFUL Web Service single handedly in Java using Apache Sling framework.
- Used Java Spring framework to create a web service to authenticate users.
- Interacted with IMS in the backend.
- Created HTTP Servlet in Java to serve Rest calls coming from client.

Senior Technical Lead

Delta Corporation - 2010 - 2014

- Project Adobe Campaign real time reporting service Adobe Campaign is a cross channel campaign creation and campaign management solution.
- There are lots of emails, sms and push notifications being sent by campaign and there is user interaction data on top of that.
- Project Social media management workflows.
- Social is the social management platform that manages the deep relationship between your customers sentiments and your business goals.
- We created the UI and the backend so that all the social media engagements of a company can be viewed by its employees, based on that employees authorization rights.
- It also allowed them to formalize the content creation flow.
- Social has three components (acquired from three different companies) publishing, moderation and analytics.

Education

Master in Computer Application - 2002(Delhi University - Delhi, Delhi)
