- Helped drive and improved QA process within the team you are assigned.

Selenium Tester

Delta Corporation - 2013 - 2015

- Project Description - Comcast is launching a new product in order to provide value to the customer.
- Comcast is targeting on the customers who dont fall under the existing market.
- This is achieved by introducing an entirely new product called the HSD-pre-paid, which mainly focuses on the Pre-paid customers.
- The service intends to provide a product with increased simplicity and ease-of-purchase, by making it available at all major retail outlets and also to check the serviceability of the customers prior to purchase.
- The service intends to help the customer activation of prepaid services via online portal with pre-purchased service or purchase via the portal, resulting in provisioning of the device and including technical assistance for inactive coaxial connection or activation issues.
- Responsibilities - Analyzed Business, Functional Requirements, and Design Review Documents to develop Test Plan for projects involved and wrote Test Scripts for positive, negative, edge cases.
- Involved in widely testing applications functionality using Selenium RC and WEB DRIVER as a regular selenium tools.
