Physical Therapy, Rehabilitation.

WORK EXPERIENCE

Student Physical Therapist

ABC Corporation - January 2016 – April 2016

- Interpreted physician referrals and selected appropriate diagnostic or prognostic procedures for evaluating patient disabilities to include muscle weakness, joint limitation, loss of functional ability and sensory deficiency from muscle, nerve, and joint injuries.
- Performed evaluation procedures and analyzed results to determine extent of patient disabilities, established patient goals, assessed functional progress, and developed and adjusted treatment plans.
- Conducted tests of strength, motor control, spasticity, sensation, proprioception, visual field, and gait analysis.
- Excelled in ability to adapt conventional PT techniques to meet the special needs of complex individual patients such as proprioceptive neuromuscular facilitation and muscle reeducation.
- Conferred with and advised allied health personnel and families regarding patient evaluation, treatment, progress and discharge plans.
- Participated on an interdisciplinary team with home evaluations and reported on patient condition and progress.
- Supervised patient care treatments and procedures delegated or assigned to a Physical Therapy Assistant (PTA), Aide, or Recreation Therapist, explaining each assigned patients treatment program and reviewing work.

Student Physical Therapist
