

## Objective

Employed in the field of commercial and residential design for 8+ years. Designed, drafted and managed the build out of over 70 stores in the US and Canada while working for Taco Del Mar. Designed, permitted and managed build-out of local soup restaurant to completion as an independent designer. Drafted construction documents for national supermarkets, banks and coffee shops. Managed portions of LEED project for a national bank as well as assisted in material selection.

## Skills

Autocad, Revit, Google Sketchup, Excel, Creative Suite, Rhino, DProfiler.

## Work Experience

### Survey Draftsman

**ABC Corporation** - March 2008 – December 2008

- Achievements Successfully managed portions of LEED project as well as assisted in material selection.
- Assisted in creation on library to stream line production drafting.
- Responsibilities Drafted construction sets, bid sets, as-built drawings, and conceptual drawings of multiple project types including fuel stations, grocery stores, quick serve restaurants and banks.
- Coordinated redlines and design/construction revisions with Structural and MEP engineers to ensure that architectural revisions were communicated and coordinated with appropriate persons.
- Performed site surveys and field measurements.
- Selected materials and provided specification of building components.
- Assisted in site layouts for fuel stations.

### Draftsman

**ABC Corporation** - 2007 – 2008

- Was a Draftsman when I worked for that company when I got out of College.
- Worked there for one year because the company was being bought out by another company and they brought in their own draftsman and Engineers there about that time.
- Designed 58ft yachts and some 50ft yachts for customers.
- Would get the plans from the sales man or I would meet with the customer and I would take notes on how they wanted their yacht to look and what they would use it for.
- Would do the same in any business by taking notes from what the engineer would want me to do while he/she would work on another project that my part would relate to.
- Have done CAD when I was working during the summer months at UND and I also did CAD in the winter months when I was working at UND.
- Have also done GIS on the grounds of UND.

## Education

Associates of Applied Science in Interior Design - 2004(Clover Park Technical College)
