

# Robert Smith

## X Ray Technologist

### PERSONAL STATEMENT

Practicing X Ray Technologist and other aspects in healthcare for over 10 years. Experience includes fluoroscopy, routine exams, portables and trauma certification. Experience in Pediatrics and Geriatrics as well as working in a surgical setting.

### WORK EXPERIENCE

#### **X Ray Technologist**

**ABC Corporation - March 2014 - August 2015**

##### *Responsibilities:*

- Performed specialty spine/scoliosis films, completed all paperwork, and assisted doctor as needed.
- Included a patient check-in, vital signs, cast removal, bandage changes, and triage patient calls.
- Able to further knowledge in Orthopaedic Radiology, update casting skills, and improve skills in other areas.
- Received further experience using PACS and digital x-ray systems.
- Demonstrated excellent customer service while providing quality patient care by taking diagnostic Radiographs.
- Assisted skills include phlebotomy, blood pressure, height, weight, pulse, O2 sats, injections, in-office minor surgeries, EMR, and wound care.
- Responsible for performing x rays using a mobile x-ray unit.

#### **X Ray Technologist**

**Delta Corporation - 2010 - 2014**

##### *Responsibilities:*

- This includes taking diagnostic films, sending them to Radiologist digitally, completing all paperwork and handling the finalized report when ready.
- All films sent to PACS for storage.
- EKGS and pacemaker checks were also performed when ordered.
- I was able to learn about PACS and the importance of HIPPA laws.
- Also, I was able to work with patients disabilities which allowed me to learn alternate ways of positioning while maintaining high standards for diagnostically acceptable radiographs.
- Skills Used I sometimes had to think outside the box to get exams done since the work area could be anything from a Skilled nursing facility to a patients personal residence.
- Professionalism, courtesy, respect and compassion are just a few of my skills demonstrated daily, with every patient.
