SUMMARY

Experienced in Relational and Dimensional Data modeling for creating Logical and Physical Design of Database and ER Diagrams using various data modeling tools like ERWIN, Toad Data Point. I am Data Modeler with strong Conceptual and Logical Data Modeling skills has involved in JAD sessions for requirements gathering, creating data mapping documents, writing functional specifications and queries.

CORE COMPETENCIES

Leadership, Entrepreneurship, Excel, Research, Data Analysis, R, Matlab, Google Analytics, Gephi, Tableau, Windows, Linux, Mac, C, SQL, Python, Ruby.

PROFESSIONAL EXPERIENCE

Data Modeler III

ABC Corporation - August 2012 – November 2014

Key Deliverables:

- Involved in gathering user requirements along with business analysts.
- Transformed project data requirements into project data models using Erwin.
- Designed the data marts in dimensional data modeling using star and snowflake schemas.
- Involved in logical and physical designs and transforms logical models into physical implementations.
- Identified and tracked the slowly changing dimensions, heterogeneous sources and determined the hierarchies in dimensions.
- Participated in the requirements gathering process to create solid business and technical requirements focused on data and data transport use cases.
- Designed of data transformation processes and tools that normalize, cleanse, augment, and attribute incoming and outgoing data from multiple sources.

Data Modeler

Delta Corporation - 2009 – 2012

Key Deliverables:

- Peoples Laboratories Ltd.
- is an integrated pharmaceutical company focused on providing medicines through its three business segments Global Generics segment and Pharmaceutical Services and Active Ingredients (PSAI) Segment and Proprietary Products segment.
- Participated in the analysis and design of a Marketing Data Mart.
- It pulls sales and marketing information from the Personal Computer Marketing System.
- Responsibilities The Data Mart (BMDM) system stores marketing data in an Oracle relational database and is interrogated using the end-user reporting tools.
- Responsible for data modeling and building a star schema model in Erwin.
- Identified the fact tables, dimensions and the key measures.
