Highly qualified Senior Network Consultant with experience in the industry. Enjoy creative problem solving and getting exposure on multiple projects, and would excel in the collaborative environment on which company prides itself.

SKILLS

IP, OSPF, BGP, MPLS, Linux, Network Security, PERL.

WORK EXPERIENCE

Senior Network Consultant/Executive
ABC Corporation -   July 1994 – November 1996

Responsibilities:

- Collaborated with CheckPoint on the release of the then-new FireWall-1 product; provided pre- and post-sales system integration services to external customers as the sole support provider for FireWall-1.
- Worked closely with CheckPoint development team to resolve bugs and implement new features on SunOS, Solaris and HP-UX platforms.
- Wrote Inspect code to allow FireWall-1 to support dynamic opening of ports for passive mode FTP (PASV).
- Assisted Fortune 500, government, financial and military customers with definition and implementation of corporate information security policies, including FireWall-1, router ACLs, VPN configuration and authentication.
- Performed vulnerability audits against customer network security configurations.
- Designed, built, and managed NeTegritys network including UNIX and NT servers, inter-platform file sharing, printers, LAN hardware, and IP addressing.
- Implemented and maintained NeTegritys Internet facing services including Internet connection, firewall, SMTP, POP, IMAP, DNS, Web & FTP servers.

Senior Network Consultant
Delta Corporation -   1992 – 1994

Responsibilities:

- Maintain and upgrade customer networks and servers with emphasis on corporate Internet and web hosting functions.
- Maintain Company Web and Mail servers a mix of IIS/Apache and Exchange/Sendmail.
- Along with SQL back ends provided by MySQL and Microsoft SQL server 2000 respectively.
- Troubleshoot all manner of client issues from simple PC related problems to complex server issues.
- Integrate Microsoft and UNIX servers in a network environment.
- Setup testing environments for application developers.
- Configure Hardware and Software based firewalls and VPNs for corporate environments.
