Objective

In depth knowledge of Software Development Life Cycle (SDLC) and its methodologies e.g. Waterfall, Iterative and Agile (Scrum). Exercised analytic techniques when gathering information from users, defining work problems, reviewing the design of computer systems and programs and developing procedures to resolve the problems.

Skills

Programming Languages: Java, C, PL/SQL; Web Technologies:.

Work Experience

System Tester

ABC Corporation - February 2011 – June 2011

- Reviewed task proposal requirements, gathered information, analyzed data.
- Prepared project synopses, compared alternatives.
- Prepared specifications for programs, resolved processing problems.
- Coordinated work with programmers, and oriented users to new systems.
- Analyzed and validated requirements to develop and execute test scripts.
- Attended meetings with business analysts to understand process flow.
- Reviewed User Manual in order to understand the purpose of the application, visualize the work flow within application, identify the various user types and follow the step-by-step instruction for each procedure.

System Tester

Delta Corporation - 2006 – 2011

- Building, testing, repairing, and inspecting of multiple carwash systems in production plant utilizing blueprints and schematics.
- Systems used an integration of pneumatic, high pressure fluid flow control systems, along with motor control systems utilizing variable frequency .
- Other duties including communicating design improvements, part version changes, and assembly errors.
- Participated in software requirements and design sessions Executed test case scenarios and document exceptions Worked with programmers to retest and .
- DOD Project Testing the EDGAR application for Security Exchange Commission.
- Included writing detailed test plans, cutover test plans and creating data to test the validity of the given requirements for the EDGAR Workstation .
- Opened SPRs for any problems that occurred during testing phase and retest them after the fix.

Education

AAS In Information Systems - (Milwaukee Area Technical College - Milwaukee, WI)
